

# Veterinary zinc ointment

*Zinc ▪ hemp oil ▪ coconut oil ▪ sulphur ▪*

*lavender ▪ thyme ▪ sage*

## ENCOURAGES HEALING PROCESSES AND PROTECTS SKIN

Volume: 100 ml / 250 ml, for horses and dogs

Veterinary zinc ointment encourages the healing of superficial wounds and has soothing effects. It helps suppress inflammatory processes, relieves itching, thus contributes to faster healing of superficial wounds and, thanks to the content of zinc oxide, helps protect the skin from UV radiation. The ointment creates a protective barrier on the skin and contains natural substances that can also secondarily contribute to protection against insects.

**Suitable for horses and dogs with skin problems (dermatitis), sunburns and minor skin injuries. In case of horses, it is especially suitable for scratches and sweet itch.**

**Manner of application:** Apply to the affected areas several times a day.

**Ingredients:** Aqua, Zinc Oxide, Cannabis Sativa Seed Oil, Cocos Nucifera Oil, Cetearyl Alcohol, Glyceryl Stearates, Cetareth-20, Sulfur, Helianthus Annuus Seed Oil, Lavandula Angustifolia Oil, Carbomer, Tocopherol, Ethyl Ferulate, Humulus Lupulus Cone Extract, Phenoxyethanol, Triethylene Glycol, Thymus Vulgaris Oil, Salvia Officinalis Oil, Linalool, Limonene, Geraniol

**Caution:** For external use only, for application to the skin (do not apply to open wounds). For animals only.

**Storage conditions:** Store in the original packaging in a dry, clean place at room temperatures of +5 to +25 °C and away from direct sunlight.

Keep out of sight and reach of children!

**Best before / Batch number:** see the packaging

**Approved by the Institute for State Control of Veterinary Biologicals and Medicines CZ under No. 127-20/C**
